Locations: Canada (HQ) - Hong Kong - UK - Greece

Solutions

For customer communication.

Security

Secure your business, verify customer transactions, authenticate customers and prevent fake accounts. Protect customers, brand reputation and enhance customer experience.

Marketing & Sales

Automate marketing, boost lead generation and drive sales. Engage your customers and send marketing campaigns, real-time notifications, order confirmations, tracking updates and personalized messages.

Customer Service

Provide efficient and real-time support with notifications and personalized messages. Reduce resolution time and increase availability with proactive customer support.

Products

Mobile communication products and APIs.

Messaging

Reach customers in the most immediate and direct way with SMS messaging. From secure messaging, one-time pins and mission-critical transactions to marketing notifications and automated service alerts, deploy global enterprise-grade messaging delivery.

Number Verification

Protect your business and your customers with fast and reliable one-time pin authentication. Verify users and their mobile phones, authenticate transactions and prevent fraud. Register users securely, prevent fake user accounts and account take overs (ATOs).

Number Lookup

Optimize communications and message delivery with number lookup. Validate customer mobile numbers with their mobile network and increase lead conversion.

Messaging

Reach customers in the most immediate and direct way.

Reach customers in the most immediate, personal and direct way with SMS messaging.
